

## **WSPP New Associate Membership**

WSPP is pleased to announce the formation of a new classification of membership for entities involved in the provision of services to bulk electric industry participants.

Associate Members will receive a variety of benefits by joining the organization and networking with WSPP's 260 existing member companies.

Associate Members pay annual membership dues of \$2,500 and are eligible for the following benefits:

**Attendance for two representatives to each WSPP Operating Committee meeting at WSPP membership rates**

**Designated vendor marketing space at each WSPP Operating Committee meeting**

**Access to WSPP "Member only" portions of the WSPP website including member contact data**

**Inclusion on WSPP meeting and general correspondence mailing lists**

The new Associate Member classification is ideal for entities working closely with bulk electric industry participants but who need not be parties to the WSPP Agreement. Voting rights and representation on WSPP committees are not included in Associate Membership.

To apply for WSPP Associate membership, please contact Duane Farmer, WSPP Operating Agent, at [operatingagent@wspp.org](mailto:operatingagent@wspp.org) or 505-250-6200.
